

myApplicants

TRACK CANDIDATES EASIER THAN EVER WITH A SIMPLE, BUT POWERFUL, APPLICANT TRACKING SYSTEM. USE AS MUCH OR AS LITTLE AS YOU NEED!

With millions of Americans newly unemployed, essential agencies are being swamped with job applications. HR departments need to manage a surge of applicants, and applicant tracking & onboarding is more important than ever! myApplicants is a robust web-based, complete hiring solution complete with applicant tracking, pre-employment assessments, background checks, drug screens, and even the ability to push your new hire data right into Time & Attendance with just a click.

Job Board Integration

In an effort to reach the largest pool of job seekers, we have deep job board integrations with sites like Indeed.com, Facebook Jobs, ZipRecruiter, and Glassdoor. Our integrations go beyond just posting your job. With our unique "Quick Apply" feature, job seekers are able to apply right from within the job board.

Two-Step Application Process and Full Application Collection Options

With a two-stage application process, job seekers can quickly submit a short application consisting of essential contact information, a resume, and a few screening questions. If they are a good fit for the job, you can extend the second step with a click, or allow the system to do it automatically.

Branded, Mobile Friendly Career Sites

We build your career site to become an extension of your company -- fully branded to match your company website while still maintaining mobile friendly functionality. With fewer hoops to jump through, we make finding and applying for jobs on a smart device easy for your job seekers.

Job Ads Rewrite

Attracting qualified applicants starts with a well-written job ad. We have a team of professional job ad writers readily available to produce high-quality job ads for our clients. Proven to increase applicant flow by 50-300%.

Full Scope Source Approach

Our robust hiring solution will allow you to tap into unthought-of applicant pools with little to no investment. With our integrated employee referral tool, employees will be able to easily share jobs to Facebook, Twitter and LinkedIn. This makes it exceptionally easy for high-quality employees to refer their qualified friends.

Collaborate with your Team

We will help you easily manage your hiring process. Get unlimited user access at no additional cost with the option to leave notes, status updating-tracking, and features to control use. We make it easy for you to communicate with your managers directly in myApplicants.

Text and Email Communication Inbox

Using our communication inbox will allow you to easily send personalized texts or emails to your applicant, and store each conversation within the system. To save time, set up custom email templates or messages that are frequently sent.

Fully-integrated Tools

With myApplicants, clients have access to fully integrated pre-employment assessments, background checks, and HRIS software with no integration fees whatsoever to easily screen candidates and onboard new hires efficiently.
